Freddie Mac, McLean, VA

Senior UX Designer

05/2019 – 02/2020

- Create low and high fidelity, semi-functional prototypes of financial web applications for Freddie Mac
- Collaborate and lead the creation of user research plans, personas, journey maps, storyboards, system maps, user flows, wireframes, and visual design using Adobe XD, Sketch, In Vision, Axure and Justinmind
- Partner with digital engineers and developers to ensure proper implementation of designs
- Create design strategies and prototypes for an enterprise application platform
- Work with multi-disciplinary teams to design digital products and services from the concept innovation stage to the final product
- Communicate the user experience and journey, the prototype design decisions and trade-offs to senior stakeholders
- Collaborate and facilitate design sprints in cross-functional teams in an Agile environment
- Provide UX coaching/mentoring to junior designers and team members
- Manage multiple initiatives and deadlines, sometimes under tight timelines
- Utilize analytical, problem-solving, and experience design/management skills

PieTech, Richmond, VA

03/2015 – 03/2019

Senior UX & Marketing Designer (03/2015 – 03/2019)

- Provided direct support to the CEO of PieTech as a Senior UX & Marketing Designer
- Managed UX design projects from inception to final production under the guidance of the CTO who oversaw the software development team
- Worked with a software development team comprised of 15 software developers and 10 software testers and technical analysts to design the user interface of MoneyGuidePro, #1 Financial Planning Software in the country
- Created wireframes, mockups, and prototypes on a daily basis for the company's mobile responsive web platform using the following tools: Adobe Illustrator, XD, Muse, Photoshop and Sketch
- Enhanced the user experience of MoneyGuidePro through analyzing the results of focus groups by identifying shortcomings in the overall design and functionality of the interface
- Created marketing and promotional materials for market visibility and product familiarity. These materials included promotional videos for MoneyGuidePro which were produced using After Effects and Premiere
- Delivered high-fidelity UX design prototypes within tight deadlines in support of the CEO
- Managed and oversaw the work of a Junior Designer by delegating design task and providing design feedback
- Created promotional website and portal design for MoneyGuidePro
