Professional Experience

GILBERT PUBLIC SCHOOLS; Gilbert, AZ 1999-2018

Director of Emergency Management

Deliver strategic leadership by writing, developing, implementing, supporting and conducting all-hazards emergency response and operations training with multiple stakeholder groups across the school district and community to build capacity for and strengthen disaster management planning and programs. Engaged in disaster preparedness, response, recovery and mitigation. Worked closely with school officials to assess, analyze and evaluate their level of preparedness in order to design or amend sustainable plans, procedures and policies. Liaise with internal and external emergency response teams to maintain caches of supplies and equipment enabling rapid deployment of emergency countermeasures during a disaster. Build and maintain contacts and communications networks for emergency/disaster recovery resources, support systems and logistic readiness planning. Execute on re-developed plans by providing training to affected personnel and learn to recognize knowledge gaps during assessment evaluations and offer additional exercises until absorption of new procedures and policies occurs.

- Established commitments from stakeholders to develop, implement, maintain, continual improvements of active current and long-range emergency/response and planning, implementation and practices.

- Advanced experience in writing emergency operations and response plans and coordinating/participating in emergency response operations in a collaborative team environment.
- Multiple years of involvement working collaboratively to develop and synchronize plans related to public health, emergency preparedness and response recovery, strategic planning, continuity of operations and medical countermeasure distribution and dispensing procedures.
- Sustained methods to build proactive, clear and consistent two-way communication between emergency responders and school officials during emergency response situations by conducting drills and tests of the system.
- Developed documentation for continuity of governance and business operation and disaster recovery planning by defining the interdependencies of each stakeholder to ensure effective and immediate response to emergency events.
- Developed and executed functional table top and exercises testing emergency preparedness, first responder cooperation and communication plans and efficacy of operations to make on-going revisions based on performance and observations.
- Managed emergency preparedness and personal protective equipment for each school location and assist in educating school employees in the use of equipment during drills and exercises.
- Currently serve on the Arizona Department of Education's Emergency Preparedness Advisory Council that created the standard for emergency preparedness and planning followed by all school districts within the state.
- Utilized the principles of the Homeland Security Exercise and Evaluation Program (HSEEP), the National Incident Management System (NIMS) and Incident Command System (ICS) to enable cooperation with first responders and establish a chain of command to communicate local accidents involving school personnel and students.
- Performed and participated in the Emergency Operations Command Center (EOC) with emergency responders, municipalities and other key stakeholders.
- Designed the Incident Command System (ICS) integrating a combination of procedures and communications by establishing a common hierarchy to enable effective and efficient incident management. Acted as Incident Commander for the district during an emergency event and while in the Emergency Operation Center activation.
- Co-Founded the East Valley 7 Stars Planning Consortium to establish regular meeting intervals with the area's emergency responder, managers and school districts to establish rapid response strategies to manage emergencies, crisis and disastrous events, pandemic and public health emergencies, emergency operations coordination, active shooter events, public health emergencies, infectious disease outbreaks and other countywide public health emergencies.
- Built and managed the District Behavioral/Crisis Response Team involving multi-disciplinary and widely dispersed teams to coordinate emergency response to critical district emergency and crisis situations.
- Wrote and received a \$250K Ready Emergency Management System (REMS) grant to build an inventory of supplies in every classroom for prolonged school lockdowns. Identified and recruited businesses and individuals as a volunteer force to support the packaging of inventoried supplies.
- Directed a district-wide behavioral threat assessment evaluation, keying in on protecting single point of entry exposure and establishing "parent alerts" on school websites to communicate critical and important information and to counter panic and confusion during a school emergency, crisis event.

- Collaborated and coordinated with the Public Information Officer (PIO) in maintaining and developing relationships with key stakeholders, the community and parents.
- Led the Suicide Prevention Program to put in place behavioral health teams and response teams to deploy psychological first aid to students in crisis.
- Designed and distributed flip charts in every classroom to define procedures on actions staff should take relating to specific school threats and emergency situations.
- Co-lead a committee in developing guidelines and procedures for schools impacted by a pandemic flu-like infectious disease outbreak and worked with public health officials in maintaining standard protocol.
- Developed and conducted functional tabletop exercises such as active shooter and lockdowns. Collected observations from multiple perspectives to assess/evaluate effectiveness of emergency response plan and developed and implemented effective planning strategies to improve plans for school readiness and evaluate response.
- Developed and coordinated the implementation of Mutual Aid agreements and other contractual agreements incorporating response plans as needed.
- Planned, developed and coordinated a Point of Distribution exercise, in conjunction with the Maricopa County Public Health Emergency Preparedness and Response Department responding with medical distribution and dispensing procedures.

Director of Risk Management, Safety & Security

Work in partnership with multiple stakeholders to develop, manage, coordinate and implement risk management and safety programs to mitigate human, environmental, property and financial losses to achieve an environment free of undue risk to staff and students. Interpret insurance coverages and communicate policy and procedures to appropriate personnel by serving as an informational resource for all risk management related issues during school and before/after-school activities. Assist in the design and development of new facilities and work areas to ensure alignment with health, security and safety requirements.

- Collaborated with school officials, insurance brokers and claims personnel to identify exposures to loss and develop strategies to eliminate or minimize the impact of loss on the district's assets and operations.
- Formulated developed, coordinated and implemented policies and procedures for and proactively directed the functions of the district's property and liability insurance programs, worker's compensation program, environmental safety programs, facilities safety, vandalism and restitution programs.
- Monitored and reviewed periodic claims and reports to provide trend analysis for all lines of insurance coverage and coordinated information with the district's workers compensation physician to facilitate cost control measures on individual claims. Skilled in collecting and analyzing complex data and in analyzing and organizing technical data.
- Managed property claims, vandalism and restitution programs by instituting policies and procedures to mitigate the district's liability.
- Consulted with operational areas to assist in identifying potential risks by developing operational risk analysis tools and reporting methods that provide levels of detail regarding risk exposure.
- Prepared and distributed annual risk management reports to demonstrate trends, progression towards improvement and offer recommendations.
- Reduced time off work and expedited return to work status by leading a safety committee to develop safer work habits resulting in a 10% decrease in work-related injuries.

- Developed a school playground inspection manual which assisted in decreasing playground student-related injuries.
- Reduced after hour vandalism by repositioning surveillance cameras to broaden coverage and ensuring security personnel remain visible to deter destructive behavior.
- Led the Business Continuity Planning that recommended the purchase of an off-site repository to house backup systems of the district's information technology.

Education

Arizona State University; Tempe, AZ

Master of Social Work

Bachelor of Science; Family Studies
