

Perry M Picou Jr

7233 La Tour Drive
Sacramento, CA 95842

(916) 303-6716
perrypicou@gmail.com

Williams-Sonoma, Inc

Lead Systems Engineer

Rocklin, CA

Feb 2015 – Present

Responsibilities include:

- Administering a large-scale, international, enterprise network, consisting of 4 datacenter locations, over three dozen corporate/branch locations, and approximately 700 retail store locations
- Deploying and supporting various network devices and solutions, including:
 - Switches: Cisco Nexus 2k/3k/5k/7k/9k; 4500-E series; 6500-E series; 3560/3650/3750/3850; 2960
 - Routers: Cisco 28xx/29xx/39xx/4xxx ISR; ASR 1002 and 1004
 - Firewalls: Cisco ASA 5500 (5510-40, 5512X-85X) firewalls; Palo Alto firewalls (30X0, 5060, PA-200) & Panorama
 - Wireless: Cisco APs (1852/2802/3602/3702); WLCs (2504, 5508, 5520); Prime Infrastructure appliance
 - Load-balancers: Cisco ACE; F5 Viprion 2400 and Big-IP; Citrix Netscaler
 - Software: Cisco Secure Access Control System (ACS) version 4.x, 5.x; Cisco AnyConnect VPN Solution
 - Riverbed Steelhead WAN Accelerators
- Working primarily as the lead engineer for the network operations team:
 - Handling escalations from all tier 2 & 3 engineers (on- and off-shore)
 - Training junior members of the team
 - Documenting network procedures and architectures
 - Identifying and decommissioning obsolete hardware, including researching and pricing replacement solutions
- Focusing additionally on high profile projects, involving network/security changes and upgrades, such as:
 - Preparing for internal/external audits
 - Upgrading software and firmware on mission critical systems
 - Deploying a corporate wired/wireless/VPN 802.1x solution
 - Coordinating router/switch/firewall software upgrades for all corporate systems
 - Taking concepts from POC to deployment (rolling out PAN firewalls; 802.1x; Nexus 9k/10Gb FEX deployments)
 - Setting up site-to-site VPNs and Extranet access for internal and external customers
 - Migrating AAA from Cisco ACS version 4.x to 5.8 for all network devices and appliances in the infrastructure
- Travelling to remote US and International corporate offices, high volume call centers, and data centers to perform hardware replacements and upgrades, network design changes, new deployments, office moves, and regular maintenance

Direct Technology

Senior Network Engineer

Roseville, CA

Nov 2013 – Feb 2015

Responsibilities included:

- Administering a multi-site corporate network, supporting a private cloud environment, comprised of 400+ VMWare Virtual Machine (VM) servers (ESXi 5.5), as well as a 200+ user Active Directory (AD) environment
- Handling all Network Security issues, including:
 - Working with State Government agencies to provision site-to-site IPSec VPN tunnels
 - Maintaining and optimizing firewall ACLs and NAT rules
 - Deploying a remote VPN solution for offsite personnel (Cisco AnyConnect VPN)
 - Setting up customer hardware and software firewall solutions (Palo Alto and IPCop Firewalls)
- Leading multiple major projects to design and execute system and network upgrades to data center and branch office infrastructures, including:
 - Consolidation of physical servers, conversion to a 10 Gigabit network infrastructure
 - Migration from an aging multi-vendor SAN to a Nimble SAN
 - Complete overhaul of server rooms and data center cabling to include logical design and cable management
- Acting as the main point of escalation for complex Service Desk and external customer issues and the key technical resource for all infrastructure related sales opportunities
- Optimizing network and server performance through the adoption of manufacturer best practices

Cisco Systems, Inc
Lead Network Engineer

Richardson, TX
Aug 2011 – Nov 2013

Responsibilities included:

- Overseeing a 7000 sq ft lab, comprised of 400 racks of Cisco networking devices and a 2500+ VM virtualization environment
- Designing and implementing improvements to the core network, including:
 - Eliminating of single points of failure within the network by deploying fully redundant solutions, such as Virtual Switching System (VSS) on Cisco 6500-E switches, ASA failover pairs, and port-channel uplinks
 - Replacing aging and obsolete hardware with modern equipment
- Planning, procuring, and deploying new hardware acquisitions for the lab environment, including:
 - Switches: Cisco Nexus 2k/3k/5k/7k; 4500-E series; 6500-E series; 3560/3650/3750/3850; 2960
 - Routers: Cisco 18xx/28xx/38xx/19xx/29xx/39xx ISR; 7600 Series; ASR 1001/1002/1004/1006
 - Virtualization: UCS B-Series, C-Series chassis; 6200 Series Fabric Interconnects; MCS chassis
 - Misc: ASA Firewalls and IPS devices; ACS Appliances; Call Manager Appliances; Wireless Controllers
- Processing M-A-C (move-add-change) connectivity requests for internal Cisco employees

Cisco Systems, Inc (via Teksystems)

Service Activation Engineer, Security Change Management Engineer

Austin, TX
Aug 2010 – Aug 2011

Responsibilities included:

- Executing Change Management requests for internal and external customer Cisco ASA/PIX/IDS/IPS security devices, including: ACL modifications, device configurations, IOS/ASDM upgrades, and signature and license file updates
- Provisioning Cisco ISR Routers, Catalyst switches, and Call Manager appliances for external customer Telepresence deployments, focused on configuring: BGP, MPLS VPNs, AAA, ACLs, NTP, and OOB Access

Sewing Station

Systems/Network Administrator

Austin, TX
Sept 2002 – Aug 2010

MCI WorldCom

Software Systems Engineer III

Sacramento, CA
May 2000 – Sept 2002

Schlumberger Well Services

Systems Administrator

New Orleans, LA
Apr 1997 – May 2000

Education

Western Governors University

Bachelor of Science

Information Technology: Network Design and Management

Graduated: Sept 2013

Certifications

Cisco Certified Network Professional (CCNP)

Certified: 03/2011; Expires: 10/2018

Cisco Certified Design Professional (CCDP)

Certified: 04/2011; Expires: 10/2018

Cisco Certified Network Associate (CCNA)

Route & Switch

Certified: 10/2010; Expires: 10/2018

Security

Certified: 06/2011; Expires: 10/2018

Voice

Certified: 06/2012; Expires: 10/2018
