EDUCATION

Institute of Aeronautical Engineering <i>B.Tech (AI & ML)</i>	CGPA 7.8 November 2021 – Present
Narayana Junior College <i>Intermediate</i>	95% June 2019 – May 2021
Narayana Techno School <i>High School</i>	98% June 2018 – March 2019

INTERNSHIPS

Web Development <i>PupilFirst School</i>	March 2023 <i>Virtual Internship</i>
Emphasized critical thinking and adaptability through holistic education, tech integration, and collaborative learning.	
GOOGLE AI-ML <i>AICTE</i>	April - June 2024 <i>Virtual Internship</i>
Gained hands-on experience with machine learning algorithms and analyzing complex datasets for meaningful insights.	
Data Science Intern <i>EPAM Systems</i>	Jan 2025 – June 2025 <i>Full-time Internship</i>
Worked on end-to-end data science solutions involving data preprocessing, model development, and result interpretation.	

PROJECTS

Multilingual Content Creation <i>Flask, Python, HTML, CSS, JavaScript</i>	Link
Built a multilingual content management app with dynamic data retrieval using Flask and Python, and an interface using HTML, CSS, and JavaScript.	
Todo Website <i>Node.js, HTML, CSS, JavaScript</i>	Link
Developed a task management app for WD201 with NodeJS for dynamic handling, and HTML, CSS, and JavaScript for the user interface and interactivity.	
EEG-based Cognitive Load Classification <i>Feature Masked Autoencoding, TensorFlow/Keras</i>	Link
Developed a neural network with Feature Masked Autoencoding and TensorFlow/Keras to classify cognitive load levels from EEG data with high accuracy.	
Diabetes Prediction <i>Streamlit, Numpy, Seaborn, Scikit-learn</i>	Link
Built a diabetes prediction app using Streamlit for an interactive interface, with Python for backend processing. Utilized NumPy for data manipulation and Seaborn for visualizing key health indicators to assist in prediction.	

SKILLS

Programming Languages: Python, Java, R, MySQL, HTML, CSS
Frameworks: Flask, NodeJS, React, Bootstrap
Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras, NLTK
Developer Tools: Google Cloud Platform, AWS, VS Code, IntelliJ
Languages and Others: English, Hindi, Telugu, Problem Solving, Aptitude

CERTIFICATIONS

- Wiki Women Hackathon
- Google Cloud Badges
- AWS Educate Cloud Introduction Badge
- Pupilfirst of Certification Web Development 101
- Programming, Data Structures And Algorithms Using Python
- Introduction to Machine Learning
