Experience Notes

- Last job ended last week of December 2018 at Rocket Software.
- After 2018, as a team member for startup company, worked on creating/converting IBM RPG to C# and VB.NET
- Currently doing self-study on building my .Net C# skills, via online courses, and online videos.

Covers Years 2018 back down to 2000 for Job Related Experience Highlights (newest first)

Rocket Software – Software Engineer - Full Time Employee

- Agile methodology used for all projects.
- IBM Cloud Storage Solutions
 - Created Cloud Commands and CL's
 - Created the UI in RPG and CL on the IBM(i)
 - Connected RPG to C++ Service Programs
 - Created Commands Base Help Text on command and UI to turn over to the Rocket Documentation group for them to add, modify and complete.
- Worked in new releases and maintenance of the Rocket ALDON Product.
- Worked on Projects using X-Analysis
- Worked on Projects using LANSAs.
- Wrote RPG program to connect to a JAVA program.

PBSI – Software Engineer - Full Time Employee

- Working on PBSI Projects
 - Proof of Concept projects converting line by line legacy RPG and CL to C# and VB.NET
 - Create programs to collect metadata from the IBM(i) to help migration of code and data.
- Working for PBSI Clients on contract consulting jobs
 - Shoe Pavilion – Contractor for PBSI
 - RPG Programs to track inventory.
 - Pet Food Express - Contractor for PBSI
 - Created UI in VB.NET for Inventory tracking
 - Created SQL Server database.
 - PMI Mortgage – Contractor for PBSI
 - Worked in a team for large project to remove old programs – well over 5000 objects. I was the last on that project team and had to implement all the changes across multiple IBM machines (partitions).
 - Maintained the PMI Software application using RPG, CL, Commands, interfacing to the web.

- Finished up their Y2K conversion.
- State Bar of California – Contractor for PBSI
 - Create and Maintain ASNA AVR Windows program written in Visual RPG using Visual Studio
 - Attend ASNA AVR training in San Antonio, Texas.
 - JWALK Classes.
 - Maintained the State Bar Software application using RPG, CL, Commands.
 - Finished up their Y2K conversion.

Education Notes

- Northeastern University (no degree) – in Massachusetts
 - Attended evening classes for 5 years while working full time at Ipswich Shellfish and New England Life. Stopped classes when I moved to California for the Bechtel Job offer.
- Malden Business School (Massachusetts) – Graduated 2-year course for accounting, RPG, and COBOL.
- Revere High School (Massachusetts) – Graduated.
