VANDANA GUPTA

Seattle, WA, 98052 | | [linkedin.com/in/vandana-gupta-data-ai-leader/](https://www.linkedin.com/in/vandana-gupta-data-ai-leader/)

EXECUTIVE DATA AND AI LEADER

Ethics, Compliance & Risk Governance | Driving Cross-Functional Risk, Compliance and Data Management

Senior leader with 18+ years' experience architecting, integrating, and governing data, AI, and technology initiatives across financial services, banking, payments, and healthcare. Proven expertise leading pre- and post-acquisition diligence, integrating compliance frameworks, and partnering with corporate development, legal, and regulatory stakeholders. Trusted advisor to senior executives and board-level committees with a track record of embedding ethics, compliance, and governance into complex equity transactions, acquisitions, and strategic partnerships.

CORE COMPETENCIES

- M&A Compliance & Governance – Pre- and post-close diligence, risk assessment, and ethics integration.
- Enterprise Risk & Regulatory Alignment – Deep expertise with GDPR, HIPAA, CCPA, FCRA, EU AI Act.
- Governance & Responsible AI – Embedding ethics, privacy-by-design, and risk frameworks into enterprise platforms.
- Strategic Leadership – Directing large cross-functional programs, managing multi-million-dollar budgets, and optimizing vendor/third-party risk.
- Data & Technology Expertise – Architecting scalable, privacy-centric data and AI/ML platforms on AWS, Azure, Snowflake, GCP.
- Executive Communication – Board-level reporting, stakeholder alignment, and global cross-functional collaboration.
- Program Excellence – Agile/SAFe delivery, KPIs, and telemetry-driven decision-making.
- Talent Development – Mentoring and building next-generation leaders, fostering innovation and accountability.

PROFESSIONAL EXPERIENCE

MASTERCARD

2011 – Present

Vice President, Data and AI Strategy, Global Chief AI and Data office, 2021 – Present

- Set vision and executed enterprise data and privacy strategy for global payments, wealth, and client data platforms, driving innovation and scalability across commercial B2B, digital commerce, open banking, and the \$3B+ buyer-supplier payments ecosystem.
- Led ethics, compliance, and governance programs tied to platform expansion, acquisitions, and strategic partnerships; conducted pre- and post-integration compliance reviews and embedded governance frameworks into new product deployments.
- Directed AI and automation strategy across payments and wealth platforms, transforming complex workflows and scaling responsible AI adoption through enterprise-wide control policies, automation frameworks, and governance models.
- Oversaw multi-disciplinary program managers executing cross-product privacy and compliance initiatives across infrastructure and product lines.
- Partnered with engineering and data science teams to design and operationalize AI/ML models for client advisory workflows and operational decision-making, ensuring compliance with global regulatory requirements.
- Forged strategic partnerships with engineering, infrastructure, analytics, legal, and compliance leaders to address data privacy and regulatory challenges across legacy and next-gen systems.
- Delivered executive-level risk and compliance reporting to senior leadership and regulatory committees, aligning governance programs with enterprise risk management objectives.
- Advanced model risk management capabilities for the banking sector by establishing governance controls, validation processes, and compliance oversight to mitigate AI/ML model risk in financial products.

Director, Data Management and Governance, Chief Data Office, Mastercard 2019 – 2021

- Developed and implemented an enterprise-wide metadata and Master Data Management (MDM) strategy to master merchant and customer data, directly supporting \$2B in revenue.
- Architected metadata and MDM solutions critical for enabling automated knowledge processes, regulatory compliance, and trusted data pipelines across the enterprise.

- Defined and monitored 30+ KPIs, building dashboards that improved vendor contract value by 25% and increased data utilization by 30%.
- Partnered with digital experience and analytics teams to enhance process automation, improve operational efficiency, and deliver real-time data insights for business decision-making.
- Strengthened enterprise governance and compliance readiness through standardized data controls, ensuring alignment with privacy regulations and operational risk frameworks.

Manager, Software Engineering and Data Platforms, Payment's network, Mastercard 2011 – 2019

- Led large agile engineering teams, business analysts of 40+ to deliver APIs and data pipelines essential for automating financial transaction processing and reporting, supporting advanced analytics, merchant management, digital payment solutions (e.g., Apple Pay, Google Pay), issuer card management, CRM platforms, and payments data warehousing.

COGNIZANT TECHNOLOGY SOLUTIONS

Irvine California 2006 – 2010

Consultant, CRM and Customer Data Systems, Healthcare domain

- Delivered large-scale data integration projects for healthcare clients, supporting unified commercial data strategies for Amgen, Pfizer, Merck and other healthcare clients. Integrated datasets across marketing, support, and digital systems for data unification.

EDUCATION

Master of Business Administration (MBA), Strategy and Leadership, University of Washington

Bachelor of Technology (BTech), Computer Engineering, Dr. Babasaheb Ambedkar Technological University, India

TECHNOLOGIES AND METHODOLOGIES

M&A Diligence & Integration | Data Governance & Privacy: GDPR, HIPAA, CCPA, EU AI Act | Enterprise Risk & Regulatory Governance | Tools: Salesforce, Informatica, Agile/SAFe Framework, PMP | Cloud Platforms: AWS, Azure, Snowflake | Big Data & Analytics: Hadoop, Spark, Kafka | Programming & Data: Python, SQL
