

SengShi Deng

Data Scientist @ Naval Surface Warfare Center, Port Hueneme Division

Email: ya9-dp4-jbk@mail.dice.com

Phone: 5202550480

Summary

Previous	Operations Research Analyst (Data Scientist) @ U.S. Army Network Enterprise Technology Command (NETCOM)
Preferred	Data Scientist
Location	Camarillo, CA, US
Desired Work Settings	Remote
Willing to Relocate	Yes
Work Authorization(s):	Authorized to work in the United States on a full-time basis.
Security Clearance Info:	US Citizen (for security purposes) Has Security Clearance
Employment Type	Full-time
Total Experience	20 years
Education	Bachelors @ San Jose State University
Profile Source	Dice
Profile Downloaded	Thursday, September 25, 2025

Seng-Shi Deng
Data Scientist

Email:

Address:
530 Calle La Roda Apt. 120
Camarillo, CA 93010

Citizenship: U.S.

Highest Grade: ND-1560-04

Veterans' Preference: None

Availability: Permanent

Clearance: Current Secret Clearance

Objective Seeking an analytical position related to astrophysics, physics, or mathematics.

Education San Jose State University, San Jose CA
B.S. in Physics

Relevant Course Work:

Astrophysics, Advanced Mechanics, Electricity and Magnetism, Advanced Electronics Lab I & II, Mathematical Methods for Physicists, Modern Physics, Thermodynamics and Statistical Mechanics, General Physics, Quantum Mechanics, Modern Optics, Vector Analysis, Ordinary & Partial Differential Equations, Modern Geometry, Programming in C/C++.

Employment History

4/23 – Present Naval Surface Warfare Center, Port Hueneme Division
Office of Corporate Business
Data Scientist, 40 hours/week

Responsibilities:

- Serve as a Subject Matter Expert on data science by using data science principle and methods to analyze products, result, applications, or other appropriate topics.
- Use scientific methodology, processes, algorithms, and systems to extract insights from structured and unstructured US Navy data sets.
- Support projects and initiatives that apply principles of computer science, mathematics, and statistics, and business knowledge to solve diverse technical, and non-technical problems impacting customers, and command goals.
- Brief stakeholders and leaders on data science projects, and initiatives, including purpose, status, and impacts.
- Lead contractors and others as necessary in support of data science projects, and initiatives.

6/18 – 4/23 U.S. Army Network Enterprise Technology Command (NETCOM)
Data Science Directorate
Fort Huachuca, AZ
Data Scientist, 40 hours/week

Responsibilities:

- Design analytical approaches to organizing studies into segments and coordinate input from other sources.
- Apply analytical approaches for studies, provide professional assessments, coordinate work products, and prepare reports and briefings which summarize results derived from documentation, assumptions, facts, and approaches.
- Provide technical advice and assistance to Network Enterprise Technology Command (NETCOM) and subcommand personnel to include mathematical and statistical techniques.
- Apply and extend new methods in the application of operations research, computer science, mathematics, statistics, as well as simulation and modeling.
- Assess progress of study efforts and redirect studies by implementing new/supplementary techniques for unique situations.

9/14 – 6/18 Office of the State Engineer, Roswell, NM
Water Resources Professional I, 40 hours/week

Responsibilities:

- Process water rights applications and permits.
- Prepare memorandums recommending approval or disapproval of filed water rights applications and assist in the administration of surface and ground water in the Roswell Artesian and Lea County basins.
- Assist the general public, answering water rights inquiries, and concerns utilizing a working knowledge of New Mexico Statutes and Office of the State Engineer Rules and Regulations with respect to water rights administration.
- Conduct field investigations in support of water rights application reviews and water rights enforcement issues.

12/08 – 5/09 EG&G Technical Services, Dahlgren, VA
RF Engineer, 40 hours/week

Responsibilities:

- Perform Hazards of Electromagnetic Radiation to Ordinance (HERO)/Hazards of Electromagnetic Radiation to Personnel (HERP) surveys.
- Lead and conducted Electromagnetic Vulnerability (EMV) Tests.
- Write and review technical reports.
- Prepare and present in briefs and out briefs.

2/05 – 11/08 Computer Sciences Corporation, Colorado Springs, CO
Systems Engineer, 40 hours/week

Responsibilities:

- Participate in the Critical Design Review of AEHF military satellite.
- Participate in systems requirement and interface meetings.
- Generate user and internal documents.
- Review contract documents to guide the software developers in the design of our GUI interfaces.
- Create and execute test cases and procedures for unit testing of our GUI interfaces in diverse operational scenarios.
- Create test data and suites to thoroughly test our GUI interfaces to ensure compliance with contract documents, as well as for regression testing.
- Assist with the finding, reporting, and reproduction of defects in interface executions to developers.

Skills C/C++, BASIC, Pascal, R, HTML, Gabriel Nimbus, LabView, Mathematica, MATLAB, MS Power BI, DOS, Windows OS, MS Office, MS Teams, GitHub/GitLab, Confluence, JIRA.

Languages English (Fluent)
Mandarin Chinese (Conversational)
German (Rudimentary)

Certifications DoD Approved 8570 Baseline Certifications: IAM Level I, IASAE Level II, & IAT Level III

Projects Pink Noise Generator, 1999
Individually built a PNG from a kit for my Electronics Lab I class.

Instrument for Measuring the Charge of Raindrops, 2000
Assembled the Pulse Amplifier circuit portion of an instrument following instructions from an August 1997 article of Scientific American entitled “Getting a Charge Out of Rain” for my Electronics Lab II class.

Activities SJSU Physics Club, 1999 – 2003
