PROFESSIONAL SUMMARY

Senior Database Administrator with 15+ years of proven expertise delivering enterprise-scale Microsoft SQL Server solutions for Fortune 500 organizations. Achieved 99.9% database uptime while managing 200+ production databases across multi-terabyte environments. Led successful Azure migrations reducing infrastructure costs by 35% and improved system performance by 40% through strategic optimization initiatives.

CORE COMPETENCIES

Database Technologies: SQL Server 2005-2022, Azure SQL Database, T-SQL, SSIS/SSRS/SSAS

Cloud Platforms: Microsoft Azure, Azure Data Factory, Power BI, Microsoft Fabric

High Availability: Always On, Clustering, Database Mirroring, Log Shipping, Replication

Performance Optimization: Query Tuning, Index Optimization, Execution Plan Analysis

DevOps & Tools: Azure DevOps, GitLab, JIRA, ServiceNow, Redgate, Idera

Methodologies: DMAIC, Agile, SDLC, Disaster Recovery Planning

PROFESSIONAL EXPERIENCE

Senior Database Administrator | Cloud Integration Specialist

Accenture - Mortgage Cadence | Minneapolis, MN | *September 2015 – Present*

Key Achievements:

- **Reduced infrastructure costs by 35%** through strategic migration of 85+ databases from on-premises SQL Server 2016/2019 to Azure SQL Database
- **Improved query performance by 45%** across critical business applications serving 50,000+ daily users through advanced indexing strategies and query optimization
- **Achieved 99.95% database uptime** while managing 150+ production databases totaling 12TB+ data across mortgage processing systems

- **Eliminated 8 hours of manual processes daily** by implementing automated backup validation and recovery testing procedures
- **Led cross-functional team of 5 professionals** (3 remote, 2 onsite) ensuring 24/7 database operations with 15-minute response time SLA
- **Reduced system downtime by 60%** through proactive implementation of Always On Availability Groups and failover clustering
- **Accelerated deployment cycles by 40%** by establishing automated CI/CD pipelines for database schema changes using Azure DevOps

Technical Leadership:

- Architected and deployed enterprise-scale SQL Server clusters supporting \$2B+ annual mortgage volume
- Designed disaster recovery solutions achieving RTO of 4 hours and RPO of 30 minutes across all critical systems
- Implemented comprehensive database security framework ensuring SOX compliance and zero security incidents
- Mentored 3 junior DBAs, with 100% achieving SQL Server certifications within 18 months

Database Administrator L1

OfficeMax | Atlanta, GA | *March 2010 – August 2015*

Key Achievements:

- **Improved system performance by 50%** through strategic index rebuilding and maintenance plan optimization across 40+ databases
- **Reduced data migration time by 70%** by implementing streamlined ETL processes for Dev/QA/Production environments
- **Achieved zero data loss incidents** over 5-year period through robust backup/recovery procedures and regular DR testing
- **Enhanced database security posture** by implementing role-based access controls and audit procedures, passing all compliance audits
- **Reduced storage costs by 25%** through database consolidation and archival strategies
- **Eliminated 95% of manual monitoring tasks** by implementing automated alerting and performance monitoring solutions

Process Improvements:

- Established standardized database documentation and change management procedures adopted company-wide
 - Created automated performance monitoring dashboards reducing issue identification time from hours to minutes
 - Implemented transactional replication supporting real-time business intelligence reporting for executive dashboards
-

EDUCATION

Georgia State University | Atlanta, GA

Bachelor of Business Administration - Economics & Finance | *December 2011*

Georgia Perimeter College | Clarkston, GA

Associate of Business Administration - Accounting | *December 2008*

CERTIFICATIONS

- **Salesforce Certified Administrator (SCA)**
 - **Salesforce Certified Platform App Builder**
 - **Lean Six Sigma Green Belt**
-

TECHNICAL PROFICIENCIES

Database Platforms: Microsoft SQL Server (2005-2022), Azure SQL Database, Azure SQL Managed Instance

Cloud Services: Azure Data Factory, Azure Synapse Analytics, Power BI, Microsoft Fabric

Development Tools: SQL Server Management Studio (SSMS), Visual Studio, SQL Profiler, Extended Events

Monitoring & Performance: Redgate SQL Monitor, Idera SQL Diagnostic Manager, Dynamic Management Views

Security & Compliance: Always Encrypted, Transparent Data Encryption, Row Level Security, SQL Audit

Integration Services: SSIS, Azure Data Factory, ETL/ELT Pipelines, Data Migration Services

Operating Systems: Windows Server 2008-2022, Linux (Ubuntu, RHEL)
