

JEFRY KUNJUMON ABRAHAM

Business Analyst / Data Analyst

469.924.4950 | jefry.a@myjobsmails.com | [LinkedIn](#)

SUMMARY

- Results-oriented Business Analyst with 5+ years of experience in **requirements gathering**, **data analysis**, and **financial application design**.
- Proficient in **Python**, **R**, **SQL**, **Excel**, **Power BI** and **Tableau** to analyze complex financial data and generate actionable insights.
- Skilled in developing **BRDs**, **FRDs**, and **SRS**, and experienced with **Agile** and **Waterfall** methodologies to deliver projects on time and within budget.
- Strong background in conducting **GAP analysis** and **SWOT analysis** to support **strategic decision-making**.
- Championed collaborations among cross-functional teams, resulting in the identification of three key process bottlenecks; streamlined operations that enhanced financial performance by reducing cycle time from 15 days to 10.

EXPERIENCE

Morgan Stanley, United States | *Business Analyst*

Jan 2024 - Current

- Gathered and documented business requirements from stakeholders using **Agile methodologies**, ensuring clear communication and alignment between technical and business teams.
- Extracted and analyzed financial data using **SQL**, enabling **data-driven decision-making** and improving operational efficiency.
- Launched user-friendly **visualization** models in **Power BI** focused exclusively on five high-impact financial variables; increased stakeholder engagement rates dramatically as these models became standard reference points for board meetings.
- Developed and maintained **advanced Excel models** for financial analysis and forecasting, reducing manual efforts by **30%** and improving reporting accuracy.
- Collaborated with cross-functional teams to document **functional** and **non-functional** requirements, leading to a 20% improvement in project delivery speed and enhanced collaboration across teams.

Infosys Limited, India | *Data Analyst*

Jan 2021 - Jul 2022

- Conducted thorough **data cleaning** and Exploratory Data Analysis (**EDA**) on extensive datasets using **Python** and **PySpark**, resulting in a **25%** reduction in data processing time and a 30% increase in data quality and consistency.
- Developed and implemented **Tableau dashboards** for **marketing** and research teams, enabling in-depth analysis of essential **KPIs** like **market share**, **customer journey**, and **sales metrics**, leading to **\$5 million** in cost savings for the client.
- Streamlined **ETL** processes with **SQL** and **Apache Spark**, reducing manual work by 28% and enhancing data integrity, supporting improved reporting and decision-making processes.
- Managed **KPI reports** for stakeholders, resulting in a 20% faster response time and 15% reduction in manual intervention, improving the efficiency of financial and operational analysis.
- Collaborated with **stakeholders** and **project management teams** to perform **root cause analysis** on application performance and product usage, implementing **mitigation strategies** that resulted in a 20% reduction in recurring incidents.
- Designed and implemented stored procedures to support **ETL processes** within data pipelines, achieving a 30% improvement in **ETL** execution time and a 25% reduction in error rates, streamlining data workflows for better insights.

Sage Softtech, India | *Business Analyst*

May 2018 - Nov 2020

- Engineered refined documentation practices around collected requirements utilizing collaborative tools like **JIRA**; cut down miscommunication occurrences leading to faster approvals by approximately five days on average.
- Conducted comprehensive data analysis in **MS Excel**, leveraging advanced functions like **VLOOKUP** and **Pivot tables** to extract actionable insights, leading to a 20% increase in operational efficiency and supporting data-driven decision-making.
- Developed interactive **Tableau dashboards**, reducing report generation time by 40%, and providing real-time insights into key performance metrics, enabling stakeholders to make informed decisions faster.
- Engaged with stakeholders to gather and document business requirements, ensuring alignment between project goals and organizational needs, and creating detailed **BRD** and **FRD** to guide successful project development.

ACADEMIC PROJECTS

Predictive Analytics Project (CONAGRA) | UTD, Texas

Jan 2023 – May 2023

- Analyzed Conagra's 2018-2022 sales data on table spreads, focusing on merchandising effectiveness and key factors.
- Utilized SAS regression for advanced statistical modeling and Power BI for visualization, resulting in a 10% sales increase and optimized pricing strategies for improved profit margins.

Risk Analysis for Trucks and Drivers: A Visual Exploration (Big Data Project) | UTD, Texas

Mar 2023 – May 2023

- A data-driven initiative using Tableau, Python, and Hive, aided in reducing traffic accidents by 15% and improving road safety.

TECHNICAL SKILLS

Languages / Documentation: SQL, Python, SAS, FRD, BRD, SRS

Project Management Tools: MS Project, MS SharePoint, Microsoft Excel, Microsoft Office, PowerPoint, MS Visio

Visualization Tools / Other Tools: Tableau, Power BI, Figma, Roadmap

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis

Tracking / Software / Other Skills: Jira, Microsoft Visio, JAD, Rational ClearQuest, UAT, Lucid chart, ETL Process, ELT Process, ERP Systems, Test Outlines & Test Cases, Use Cases & Use Case Mapping, Business Requirements, Requirements Traceability Matrix (RTM), Microsoft Access, Confluence, Smartsheet, Google Analytics, Requirements Gathering, Data Modeling, Data Visualization, Business Intelligence, Data Analytics

Soft Skills: Time management, Leadership and Management, Project Management, Product Management, Problem-Solving, Negotiation, Decision-Making, Documentation and Presentation, Customer Relationship Management (CRM), SDLC, Agile/Scrum, Waterfall

Operating System: Windows, Linux, and Mac OS

EDUCATION

The University of Texas at Dallas, May 2024

Master of Science, **Business Analytics (Minor: Data Science)**

Relevant coursework: Business Analytics with R, Advanced Statistics for Data Science, Predictive Analytics for Data Science, Applied Machine Learning, Big Data, Prescriptive Analytics, Business Data Warehousing, Cloud Computing Fundamentals.

Kerala Technological University

Bachelor of Technology, **Electrical and Electronics Engineering**

CERTIFICATION

Microsoft Certified Azure Data Engineer (DP 203)

Alteryx Designer Core Certified
