

PRIYAM SHETA

Business Intelligence & Data Engineer

Email: shetapriyam1@gmail.com | Phone: 812 543 3055 | Address: Mckinney, TX, | [LinkedIn Profile](#)

Profile

Business Intelligence & Data Engineering Professional with expertise in ETL pipelines, SQL development, and BI reporting. Hands-on experience designing Power BI dashboards, SSIS/SSRS solutions, and AI-ready datasets across financial services and consulting. Skilled in data modeling, automation, and cloud platforms (AWS, GCP, Azure, Snowflake). Adept at bridging business requirements with technical execution, enabling organizations to improve decision-making and reporting efficiency.

Work Experience

Mastercard, NY | BI & Data Engineer (SQL/Power BI/ETL) Jan 2024 – Present

- Developed **interactive Power BI dashboards** with advanced DAX, delivering insights across finance, product, and risk functions.
- Designed and optimized **SQL queries, stored procedures, and views** to support analytics, fraud detection, and reporting use cases.
- Automated **ETL pipelines using SSIS, Airflow, and Python**, ensuring timely and accurate data delivery.
- Created and scheduled **SSRS reports** for operational and executive stakeholders, supporting decision-making.
- Built and maintained **data refresh jobs on AWS (Airflow, Lambda)** to ensure consistency across BI reports.
- Partnered with data scientists to prepare **ML-ready datasets** through feature engineering and data quality checks.

BMO Financial Group, IL | Data Engineer – BI & Cloud Analytics Jun 2023 – Sep 2023

- Migrated legacy workflows into scalable pipelines, enabling **AI-driven analytics and BI insights**.
- Migrated data workflows to **SAS and SQL-based solutions**, improving maintainability and reporting accuracy.
- Designed automated ETL pipelines with **Airflow and BigQuery**, supporting advanced analytics in the cloud.
- Delivered **SQL development and optimization** for customer analytics, enhancing query performance.
- Created **Power BI dashboards and Salesforce CRM analytics** to monitor customer behavior and campaign performance.
- Conducted **hypothesis testing and statistical analysis** to support marketing and engagement strategies.

Accenture, IN | Business Data Analyst Aug 2019 – Jul 2022

- Built and maintained **ETL workflows in SSIS and SQL** to ensure reliable data integration within Citi Private Banking systems.
- Designed **SSRS and Power BI reports** with complex DAX measures, enabling drill-through analysis and self-service BI.
- Optimized **ETL batch jobs and SQL scripts**, improving data pipeline performance and reducing processing delays.
- Automated monitoring and incident handling with **ServiceNow**, streamlining failure resolution.
- Partnered with infrastructure and compliance teams to maintain **audit-ready, secure data operations**.

Technical Skills

ETL & Data Integration: SSIS, Informatica, DataStage, Airflow, Azure Data Factory, Databricks
SQL Development: T-SQL, PL/SQL, Stored Procedures, Views, Functions, Query Optimization
Business Intelligence: Power BI (DAX, M, Row-Level Security, Drill-through Reports), Tableau, SSRS, Excel
Data Engineering: Python, Spark, Hive, BigQuery, AWS Glue, Redshift, DynamoDB, Snowflake
Automation & DevOps: GitHub, Jenkins, Docker, Terraform, CI/CD Pipelines
Collaboration & Tools: JIRA, Confluence, ServiceNow, Agile/Scrum

Education

Master of Science in Data Science May 2024
Indiana University, Bloomington, IN
