- Network Security Monitoring
- Malware Analysis
- Threat Intelligence
- Operating System Fundamentals
- Vulnerability Management
- Security Policies & Procedures
- Scripting and Automation (Basic)
- Communication and Reporting
- Team Collaboration

CERTIFICATIONS & PROJECTS

- CompTIA Security+
- CompTIA CySA+
- Actively building hands-on skills through platforms like TryHackMe and Hack The Box, with a focus on incident response, vulnerability analysis, and threat detection.

PROFESSIONAL EXPERIENCE

Element Fleet Management – Remote, MN

Maintenance Platform – Truck | Aug 2024 – Present

- Monitor and manage a high-volume ticketing platform, handling approximately 5,000 service tickets and 800–1,000 client calls monthly related to fleet maintenance issues for national and international clients.
- Triage and respond to system-level issues in strict adherence to client-specific policies and SLAs, ensuring timely and accurate resolutions across a global client base.
- Maintain a high level of accuracy and efficiency while managing large volumes of data and communication, demonstrating resilience under pressure and strong operational awareness.

Health Insurance Associates – Tampa, FL

Benefits Associate | March 2022 – August 2024

- Served as a trusted advisor in a Medicare brokerage, analyzing client data to recommend tailored insurance solutions while maintaining a strong focus on data privacy and regulatory compliance.
- Ensured strict compliance with HIPAA and internal data protection policies, reinforcing best practices in data security, confidentiality, and regulatory adherence.
- Managed sensitive personally identifiable information (PII) daily, building a strong foundation in secure data handling and privacy-first client interaction.

LazyDays RV – Seffner, FL

Crown Club Technician | January 2019 – March 2022

- Installed, configured, and maintained advanced satellite communication systems on high-value recreational vehicles (valued at \$1M+), applying secure configuration practices and system hardening principles.
- Delivered expert-level technical support to a high-profile clientele, troubleshooting hardware and connectivity issues with precision.
- Identified potential points of failure and system vulnerabilities, applying proactive problem-solving techniques to mitigate risks.

Dickinson Fleet Services – Brandon, FL

Diesel Technician | June 2017 – January 2019

- Performed systematic fault analysis using diagnostic tools and technical documentation.
- Diagnosed and repaired complex diesel engine systems and related components, developing analytical thinking and technical troubleshooting skills.

- Utilized diagnostic tools and technical documentation to perform root cause analysis, laying a foundation for interpreting security alerts, logs, and system anomalies.
-

Pep Boys – Tampa, FL

Automotive Technician (Tech A) | September 2013 – June 2019

- Interpreted complex system data to detect mechanical failures.
 - Worked efficiently in a fast-paced, high-volume setting while prioritizing tasks and managing urgent issues.
-
