EXPERIENCE

ENTERPRISE DATA/AI STRATEGIST/ HEAD OF DATA

TCG/U.S. White House/ U.S. Securities and Exchange Commission
2021 - Present

U.S. White House

- Serve as Enterprise Data Strategist for the Executive Office of the President, driving high-impact, cross-agency data initiatives at the highest levels of government.
- Partner directly with the Chief Information Officer to architect and launch a transformative federal data management program from the ground up.
- Lead and direct a senior data team in enterprise-wide data discovery, inventory, and the development of actionable data architecture frameworks to modernize legacy systems.
- Design and execute a comprehensive Enterprise Data Strategy, ensuring alignment with federal mandates, regulatory compliance, and industry-leading data governance standards.
- Chair and facilitate executive-level Data and AI Working Groups, fostering a forward-leaning culture of innovation and strategic adoption of data and artificial intelligence across leadership.

TCG

- Lead growth of a data and AI focused program, including developing strategic partnerships, managing subcontractors, engaging in data and AI professional recruitment, managing strategic AI adoption and ethical governance, and participating in capture and other development activities.
- Increased corporate funding by approximately 16% on an annual basis by way of alliance building and other development efforts.

- JavaScript
- Jupyter

EXPERIENCE (CONT'D)

U.S. Securities & Exchange Commission

- Simultaneously led, mentored, and recruited three large data/app dev teams responsible for developing Dash applications that deliver real time data on market trends and manipulation for SEC Chairman during television appearances, dashboards for executive leaders, and custom visualizations for SMEs. Work led to a 20% reduction in investigation times, a rapid increase in executive decision making and being named “best contractors at SEC” by Enterprise Data Architect.
- Set record for fastest and cleanest ATO process at SEC for production of ground-breaking web-based AI-powered data visualization tool (using Amazon Bedrock, Drupal, HighCharts, PostgreSQL, and AWS Glue) that enables non-data experts to quickly and easily develop, save, and share pertinent data insights.
- Supported SEC Chief Data Officer in creating and launching well-received enterprise data visualization strategy, responsible for dramatically reducing data silos, enhancing data security/governance, increasing the speed of data sharing, and promoting a data-driven culture. Efforts acknowledged as outstanding by SEC Chairman.

EDUCATION

MICHIGAN STATE UNIVERSITY
Economics, Bachelors Degree

GEORGE WASHINGTON UNIVERSITY
Sociology, Masters Degree

CERTIFICATIONS

- Project Management Professional (PMP)
- Professional Scrum Master (PSM I)

ACHIEVEMENTS

- ACT-IAC Voyagers Fellow
- Ranked highest performing company manager for three consecutive years (TCG, Inc.)
- Numerous outstanding CPARS reviews

EXPERIENCE (CONT'D)

- Expanded engagement with SEC Data Catalog by over 600% via strategic initiatives to enhance data storytelling.
- Strongly managed extraordinarily complex stakeholder relations and risks to deliver all products on time and on budget.
- Developed project plans, roadmaps, and weekly reporting presented to senior management on an ongoing basis.
- Served as senior technical data science and Agile consultant and developer of Agile and data trainings.

REFERENCES

UPON REQUEST

PRINCIPAL DATA CONSULTANT

2012 - 2021

Zobo Solutions

- Ensured compliance with budgets, deadlines, and SOWs across multiple simultaneous projects and funding sources (i.e. U.S. Department of Treasury, U.S. Navy, corporations), which led to maximum renewal of all option years.
- Supervised, mentored, and developed large teams of data scientists and software engineers.
- Reported out on project statuses to internal senior executives and external clients on an ongoing basis.
- Acted as lead data expert on a variety of data science initiatives.
