Program & Project Leadership | Cross-Industry Transformation | Building Systems That Work—for People & Outcomes

I am a purpose-driven program and project management leader with two decades of experience guiding cross-functional teams, navigating complex systems, and delivering high-impact results across insurance, healthcare, utilities, and government sectors.

Grounded in compliance-heavy industries and global operations, I bring a steady, strategic approach to transformation, process, balancing structure, and agility while keeping people and outcomes at the center. Known for my strong interpersonal skills and ability to communicate effectively at all levels—I create trust, foster collaboration, and drive alignment. I thrive in fast-paced, often ambiguous environments, managing competing priorities with calm, clarity, and precision. I am passionate about mentoring emerging leaders, solving operational puzzles, and bringing order to complexity.

Open to fully onsite, hybrid or remote roles.

WORK HISTORY

Monster Government Solutions, Weston, MA 9/2021- 8/2025

Program Manager- Sr. Project Manager- Customer Success, Professional Services- Sales E-PMO

Senior Project Manager / Program Manager focused on customer success, overseeing a customized labor exchange software solution (SaaS) for the State of Ohio account.

Product Implementation responsibilities included leading a matrixed and direct reporting team of 10 + members. Designed and optimized end-to-end product development with the client, implementation, and transformation efforts for requirements management, future state process development, change management, change readiness, and user training.

Oversaw training deployment impacting 80+ counties and 2,000+ users across state agencies and third-party vendors supporting federally and state-funded programs.

Steady-state responsibilities included account management for both front-office and back-office SaaS products. (SOW- Sales upsell growth, cross-selling and Change Requests, Purchase Orders, invoice management, Dashboard reporting, Business Roadmap Planning, Operational Process Development and Management to align with agreed KPI and continuous improvements). Led formalizing account governance, cross-functional and cross-collaborative initiatives involving technology product customization, regulatory compliance, state and federal regulatory reporting, self-service platforms, data migration projects, mobile service applications, customer portals, mapped customer and vendor touchpoints and implemented CX improvements and self-service Help Desk Training portal- Zendesk Knowledge Base Help resources, and Work-Based Learning workforce programs. (S2P full life cycle & vendor implementation). The role was fully remote, with occasional travel to client locations.

(My employer Monster Career Builder bankrupt in June 2025.)
