

PROFILE

5 years of experience as an **SDET**. Excellent understanding and experience in **Automation Testing (Selenium WebDriver)**, **API Testing**, **Database Testing** and **Manual Testing**, **Smoke Testing**, **Regression Testing**. Well versed in **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)**. Created Automation Scripts using **Maven**, **Git**, **Selenium WebDriver**, **Selenium Grid** and **Java**. Experienced in **Creating**, **Modifying** and **Maintaining** Automation Framework Models (**BDD** and **DDD Frameworks**).

EMPLOYMENT HISTORY

SDET, Fidexio, Tysons Corner, VA

JULY 2017 – PRESENT

- Engaged **Java**, **Selenium WebDriver**, **Junit**, and **Maven** to **Automate** framework.
- Worked with **Scrum Team** and attended **Sprint-related Scrum Ceremonies: Sprint Planning, Daily Stand-Up, Sprint Demo** and **Sprint Retrospective** meetings.
- Expertise in **Core Java**, implementing **OOO (Object-Oriented Concepts)** such as **Abstraction, Polymorphism, Encapsulation and Inheritance**.
- Strong knowledge in **Exception Handling, Collection Framework, Maps**.
- Conducted **Functional Testing, Regression Testing** using **Selenium** with **Data-Driven framework** and **Behavior-Driven Framework**.
- Found tracking defects by using **Jira Test Management** before **Software Release** phase and developed **Test Data** to be used in the **Software Development Life Cycle**.
- Followed the **SDLC** and **STLC** processes, handled using requirement documents to create **Testing Strategy** including providing **Test Estimates**, documenting **Test Plans** and objectives, and developing **Test Scenarios** and **Test Cases**.
- Utilized **Postman** for manual testing of **Restful API**.
- Grouped **Test cases** and **Test suites** to be run in **Regression** and **Smoke suites** using **Jenkins** for **CI/CD**.
- Utilized **Git** as a **Source control tool** for resolving **merge conflicts** and **push/pull** requests and **GitHub** for **Version control** of the projects **source code**.
- Involved in **Black Box Testing, Functional Testing, Integration Testing, Ad-Hoc Testing, Back-End Testing, User Acceptance Testing, Smoke Testing**, and **Regression Testing**.
- Created automation **Test scripts** using **Data-Driven Framework** and **Page Object Model (POM)** to test the **Web Applications** using **Selenium WebDriver** with **JAVA** and **Maven**.
- Performed **Cross Browser Testing** and **Parallel Testing** on **Chrome, Firefox, and Safari** using **JUnit** and **Maven** on **Selenium Grid**.
- Performed the grouping of **Test suites, Test cases, and Test Methods** for **Regression** and **Functional Testing** using **JUnit Annotations**.
- Worked with all stages of the **Software Development Life Cycle** and **QA Life Cycle** in all dimensions of **Functionality, Usability & Reliability**.
- Extensively used **object oriented programming(oops)** concepts for automating the web applications.

- Expertise in writing **Test strategy, Test Plan Preparation and Implementation, Test Case Design, Test Tool usage, Test execution, Defect Management and Defect Tracking.**
- Worked on multiple projects, and Extensively involved in **User acceptance testing (UAT), End to end, System Integration Testing(SIT), Functional Testing, Regression Testing, Validation testing, Performance Testing, and Cross-Browser testing.**
- Prepared **Defect Report** as per **severity and priority.**
- Participated in **Functional, GUI, Regression and Ad-hoc Testing.**
- Developed **Test Cases, Test Scenarios, Test Plans** and **Defect** reports for enhancements.

SDET, Intabella, Tysons Corner, VA

NOVEMBER 2015 – JULY 2017

- Tested and verified **Web service**, conducting **data validation** and testing using **API** methods like **GET, POST, PUT, DELETE**, and tools such as **Postman**.
- Firm understanding in **Java Database Connectivity (JDBC)**, proficient in writing **SQL Queries** and performed in **Back-End Testing**.
- Configured **Selenium Web Driver, TestNG, Maven tool**, and created **Selenium automation** scripts in **Java** prior to quarterly releases.
- Created and maintained **automated test script** for **API** testing using **Restful**.
- Developed **BDD** and **DDD** script with **Cucumber** and written step definition using **Gherkin** language based on features.
- Skillfully created customized **locators** to identify **Web Elements** on the **Web Page** and utilized the **Page Object Model (POM)** to easily maintain the **Web Elements**.
- Performed **Web Services Testing** using **POSTMAN** and **REST-Assured library**.
- Responsible for the automation and distribution of the **Smoke Test** and **Regression Test reports** to the team.
- Involved in **Analyzing, Designing and Implementation** of **QA testing** strategy for **Web based** and - **Client/Server** applications using **Manual testing** and **Automation Testing Selenium** of client server application in **back - end testing**.
- **Conducted API service level automation** for **end to end global scenarios and standalone services**.
- Developed automation script for Mobile Native applications (IOS, Android) using Appium, Java.
- Extensively used **SQL statements** to query the **Oracle Database (RDBMS)** for **Data Validation and Data Integrity**.
- Used **Appium** for test **Automation Framework, Cross platform** test Automation
- Performing **Functional, Integration, Regression Testing, Smoke Testing, White box/Black box Testing** for **Mobile Application**.
- Tested the **REST** services for scalability and validated using **REST Assured**.
- Worked on **JDBC** as a data source to fetch data from **MySQL** database in **Data driven testing**.
- Coordinated and worked hand-in-hand with developers in **Agile** model and recorded defects using **Jira** and track until they are resolved.
- Developed and updated **Test Scripts** based on the **Functional** and Technical Specifications using **Java/JUNIT/JSON** Object
- Manually checked with the results from the application execution and captured the **SQL** statements.
- Performed end-to-end test automation for web services applications (**Rest**) using **Postman**.
- Conducted API service level automation for **End to End** global scenarios and standalone services.
- Also possess good knowledge of **UNIX/Linux shell commands** to tail the logs, adding users, starting services from the shell, settings aliases to frequently used commands, creating users and settings file system permissions.
- Developed automation script for **Mobile Native** applications (**IOS, Android**) using **Appium, Java**.

EDUCATION

Bachelor's Degree in Mathematics, Istanbul University, Istanbul, Turkey

SEPTEMBER 2008 – JUNE 2012

Master of Business Administration (MBA), Celal Bayar University, Manisa

JANUARY 2013 – AUGUST 2014

SKILLS

Languages: Java, Gherkin, SQL, HTML, XML, CSS

Web Services: REST-Assured, POSTMAN

Methodologies: Agile;Scrum, Waterfall

Build Tools: Maven

Platforms: Windows, Mac OS, AWS

Databases: MySQL, Oracle

Version control: GitHub

Source Control Tool: Git

Continuous Integration Server: Jenkins

Testing Tools: Selenium WebDriver, Selenium Grid, Cucumber, Apache POI, JDBC

Test Management Tools: Jira

Testing Frameworks: JUnit, TestNG, Data-Driven, Test-Driven Development (TDD), Cucumber

LANGUAGES

English

Turkish
