PROFESSIONAL EXPERIENCE

ENTERGY NUCLEAR – ECHELON, JACKSON MS

October 2019 to July 2020

Sr. Project Manager, Leader and Team Performance (Rotational) – designing, developing, implementing, delivering, and evaluating leadership and employee development programs and activities, including partnering with senior leaders on leadership development and training issues for current and future leaders, conducting leader and team interventions, conducting new leader assimilations, identifying leadership performance shortfalls, partnering for solution implementation, and monitoring effectiveness and resolution.

ENTERGY NUCLEAR – ECHELON, JACKSON MS

June 2017 to October 2019

Organizational Effectiveness Consultant – improving plant performance through governance and oversight for the nuclear fleet, project planning, compliance oversight, root cause investigation, facilitation of interventions, assimilations, and team offsites, developing, assessing and trending metrics, evaluating plant performance, providing senior leaders with performance gaps and recommendations, supporting corporate assessments and evaluations as for fleet, performing behavioral analysis, leading and supporting leadership assessment and evaluations.

ENTERGY SERVICES, INC. KAST CENTER — CLINTON, MS

June 2014 to June 2017

Sr. Training Specialist - Design, develop and manage industrial safety training and initiative (such as flash mitigation training, safety manual rewrite team, and safety content being pushed out following accidents and policy changes), line distribution and gas distribution technical skills training program, project planning, field personnel training, write policies and procedures, evaluating safety documents and manuals, root cause evaluations, developing and marketing various development initiatives, developed the career and curriculum mapping for gas distribution training, which became the standard for utility tech training development.

NEW LEARNING RESOURCES ONLINE — JACKSON, MS

January 2008 to June 2014

Director of Curriculum Development - Staff management, lead team member, accreditation board member, marketing, accreditation reviewer/SER developer, managed data analyses, managed the Learning Management System (LMS), POC for LMS programmers, project planning, oversight of the SAT process, writing and developmental staff management, website development and maintenance management, training instructor as needed, online instructor as needed, and field auditor/site visitor for Job Corps Centers.

Key Results:

- Negotiated Department of Labor contracts for Job Corps learners in relation to training programs.
- Designed online curriculum, activities, games and website/website materials for non-profit MS Community Education Center's *You've Gotta Move* project.
- Completed Self-Evaluation Report for national, regional and local accreditation for High School and Trade Diploma Programs.
- Designed, developed and implemented the *Career Pathway* program for students looking to pursue a future in a vocational/trade environment allowing over 12,000 students to obtain an accredited high school equivalency diploma.
- Developed, authored and edited all text books, curriculum and course material for several subjects including: United States History, Mississippi Studies, Advanced World Geography, Health, and Business Math.
- Developed and implemented annual reporting practices and procedures, and managed the use of SPPS and all statistical reporting media (Learning Management System data pulled from user activity, various surveys, and quantitative and qualitative data gather from programs, etc.) This reporting process led to the academic integrity investigation/project that helped to clean up gaps in the program and put procedures into place to promote the integrity of the program and hold to accreditation standards.
