

Lin Wilder

Professional Summary

Collaborative change leader; developer of people, teams and change champions; facilitator of effective group processes and initiatives; strategic thinking partner; believer in innovation; advocate for equity; and creative solver of problems dedicated to creating sustainable change and improvements in health and mental and emotional well-being.

Work Experience

Community Impact Director – Health District of Northern Larimer County, Fort Collins, CO, 01/1997 - Current

- Identifies service gaps and barriers and organizes diverse community and state leaders and consumer/family advocates to facilitate system-wide healthcare improvements. Strategies include development of champions for change; public awareness; culture change; advocacy for policy, regulation and legislative changes; process improvement; resource development; creation of funding partnerships; etc.
- Develops innovative public health and behavioral health programs, services and supports (for example, ground-breaking behavioral health early identification and intervention services for youth and families).
- Coaches, trains and develops high-performance teams of community organizing, project management and clinical professionals.
- Provides training, consultation, technical assistance and facilitation of process, practice, culture and policy improvements to organizations to improve services and outcomes.
- Manages multiple complex projects and creates frameworks for managing complexity and identifying clear paths forward.
- Participates in strategic planning and organizational development as member of organization's management team.
- Champions organization-wide improvement projects such as addressing equity issues for staff and clients, and improving client screening and support for substance use and suicidality.
- Provides administrative oversight and management of strategic plans, evaluation, budgeting (\$4M+), policies and procedures, contracting, hiring, performance management, and operations.
