EXECUTIVE LEADER | CLINICAL HEALTHCARE OPERATIONS

Expertise in strategic planning, business development, clinical operations, fiscal management and physical plant in a variety of settings to include corporate / systems office, ambulatory and inpatient / ED, geriatric medical and behavioral health, rehabilitation, home health, durable medical equipment, hospice care, palliative care and forensic-medical settings. Adept at leveraging background in operational turnarounds to deliver on improved provider satisfaction, patient care outcomes, positive financial growth, and regulatory compliance. Strategic thinker and skilled communicator with proven ability to lead and motivate diverse teams to achieve and exceed goals. Capacity for action-oriented leadership and collaboration, working well under pressure to meet challenges while improving workplace culture.

EXPERIENCE

Inova Health System, Falls Church, VA

August 2008 - Present Director for Physician Practices - Inova

Community Health Services

Pursued by leadership to direct and lead business integrations and reorganizational efforts for Population Health division. Focused on regulatory compliance, building business infrastructure, employee / physician engagement, patient and community partner satisfaction, workflow efficiencies via LEAN methodologies, and improved clinical outcomes.

Community Health Care Network (CHCN) Director

Management and oversight of cross agency coordinated operations providing primary care services for more than 16K patients (all below 200% FPG) with an annual budget of \$7.85M. Direct reports include a team of five Clinical, Business and Laboratory Managers who supervise 78 FTEs team members including 11 Physicians and Advance Practice Providers. Align with Fairfax County and community partnerships, to coordinate free or low-cost specialty care services locally for underserved population, negotiating the Service Level Agreement (SLA) for operation of the clinics.

- Facilitated cost savings of \$3.2M during the contract term.
- Scored average Patient Satisfaction of 94% Excellent Care with over 3K unduplicated patients participating during the survey period.
- Achieved NCQA/PCMH Level 3 recertification within three months of contract acquisition; successfully participate in the 2019 NCQA Standards.
- Maintained COLA Accreditation at all locations.
- Spearheaded the True North / LEAN Six Sigma workflow improvement process into each clinic with many successful projects such as appointment wait times, medication reconciliation, and patient flow to all service lines at time of encounter and employee / provider engagement.
- Reorganized behavioral health, implementing integrated care with a one encounter MDT approach.

- Participated in two grants, one research based, focusing on diversity in health outcomes. Clinics lead the nation for health outcomes for diverse populations.

Inova Ewing Forensic Assessment and Consultation Teams (FACT) Director

Management and oversight of clinical forensic care teams operating on a 24/7 basis, for regional response and forensic medical evaluations of adult and pediatric patients presenting with allegations of sexual assault, abuse, domestic violence or other violent acts throughout northern Virginia; including unbiased expert testimony. Negotiated and finalized memorandum of understandings with 21 collaborative agencies to provide services to victims.

Page

Two

- Increased staffing from four to 10 to accommodate growing demands for services.
- Amplified volume by 31% in year three (2013 - 446 encounters to 2015 - 633 encounters).
- Achieved 90% excellent satisfaction score from community partners in 2015.
- Provided consultation and support to Ft. Belvoir Military Base to implement an on-base SANE program.
- Delivered consultation and support to SANE Coordinator at Sentara Northern Virginia Medical Center regarding stabilization and growth of the Sentara Program.

Transitional Care Services - Discharge Clinics and Transitional Care Management (TCM) Director

Management and oversight of 3 Discharge Clinics in Fairfax, Herndon, and Leesburg. servicing patients being discharged from an Inova hospital or emergency room who either do not have a medical home or cannot get an appointment with PCP within 72 hours following a hospital admission.

- Realized 86% excellent care on patient satisfaction survey.
- Met growth plan expectations by increasing volumes within 6 months.
- Discharge clinics attained readmission rate of 5.9% with an average LACE score of 8.5.

Management responsibilities of a telephonic case management program which focused on traditional Medicare / Medicaid, Innovation Health, Medicare Advantage and uninsured patients with chronic illnesses, heart failure (HF), chronic obstructive pulmonary disease (COPD), pneumonia, and diabetes. Worked with leadership at each campus, EPIC informatics and business analytics team to develop reports enabling efforts that would affect changes in LOS and 30 day readmission rates.

- Streamlined the referral process to capture and admit 92% of patients within 48 hours of hospital discharge.
- Achieved 88% excellent care on patient satisfaction survey.
- TCM reached a readmission rate of 9.3% with an average LACE score of 9.0.
- Achieved 19.4% favorable budget for both programs.

Inova Community Health

Liaison and Chief Operating Officer for Alexandria Neighborhood Health Services (FQHC now known as Neighborhood Health) through an Inova community benefit. Oversaw the design, operation, and improvement of the system creating and delivering FQHC's Mission. Participated in planning, development, implementation, and evaluation of

strategic business and performance goals, objectives, plans, budgets, programs, and policies.

- Improved Access to Care by increasing encounters, numbers of available appointments, provider FTE's, and the number of exam rooms.
- Supported ANHSI's sustainability through improved operational efficiencies, implementing a standardized scheduling template, a centralized Call Center to manage 2000 incoming calls, creating standardized processes for registration, sliding fee application, eligibility determination, patient flow management and maximizing staffing ratios.

Inova Medical Group Director for Hospital Based Physicians

Managed profit and loss (P&L) for 137 hospital based employed physicians across the health system including budgeting, productivity management for clinical staff and physicians, expense control and identification of capital needs for the operation of five hospital based departments.

- Implemented system to capture RVU productivity at the 75th percentile of national benchmarks across all payers in inpatient and outpatient settings.
- Achieved compliance for federal reimbursement reporting in the EMR for Transplant program; implemented EMR successfully in three clinic settings.

Page

Three

- Obtained new PTAN / Medicare 855's (UPIN enrollment applications) for service line physicians to maximize reimbursement.
- Completed "needs assessment" and re-structured staffing model for three departments to improve productivity.
- Streamlined the emergency room admission referral process for Inova employed physicians with 70 new community physician practices.
- Identified and captured 500K in missed charges for OB deliveries.
- Updated and improved decision tree for emergency deliveries in collaboration with employed physicians.

Director LTC Inova Commonwealth Care Center

Hired with the expectation to position 143 bed facility with 155 FTE's and \$17M annual gross revenues, for acquisition within a three year period. CARF and TJC Certified.

- Improved revenue quality and improved EBIDA trend, exceeded 2009 target by \$1.1M.
- Increased skilled nursing volume / revenue by 150% in six months.
- CMS 5 Star Program-achieved 4 Star Overall status in 18 months.
- Achieved highest employee satisfaction score in 2009 and maintained top system scores in 2010.
- Augmented quality clinical indicators from 56% to 89% in 15 months.
- Implemented patient safety program resulting in zero serious safety events.
- Eradicated agency usage; improved retention, developed effective cost savings plan.
- Planned and implemented a successful Traumatic Brain Injury program for LTC with an average occupancy rate of seven to eight patients co-mingled throughout the facility.

- Restructured a 24-bed locked unit, that housed dementia and TBI patients, to allow patients the freedom to leave the unit as part of the Activities of Daily Living care plan.

**HCR - Manor Care
August 2008**

May 2006 -

Executive Director/ Administrator

Sustained 171 bed Sub Acute Nursing Facility specializing in Orthopedic and Pulmonary Care. Led a multi-disciplinary team of 165 FTE's in planning, developing, directing, and monitoring operational, administrative, clinical, human resources, customer service, and fiscal activities for the facility's programs and services.

- Introduced successful quality initiatives for HIV, pulmonary care, TPN administration, infection control, incontinence, and falls.
- Removed locked unit, implementing patient safety protocols allowing a mixed population facility-wide.
- Improved case mix, increasing skilled nursing patient volume 65% and averaging 70 SNF patients.
- Implemented electronic medical record (EMR) / billing system.
- Eliminated agency staff usage.

ADDITIONAL RELEVANT EXPERIENCE

Geronomics Management Systems

**Vice President of Business Development; Assistant Director of Operations;
Regional Human Resources and Corporate Compliance; Executive Director /
Administrator (1987-2005)**

Progressively promoted during tenure holding several positions.

- Improved Case Mix Index and overall Revenue Quality by 36% (increased Medicare volumes and decreased Medicaid).
- Reduced bad debt from 4M to 100K in 18 months.
- Responsible for successful 2M construction project which added an additional 30 bed SNF unit and Rehabilitation Gym.

Glynis Laborde, MBA

(504) 214-5200

Page

Four

- Initiated a new cost based federal program (now known as SNF's).
- Developed and opened Joint Commission accredited acute Rehabilitation Hospital, Hospice unit, inpatient Geriatric Behavioral Health unit and Outpatient Day Hospital Program to better serve the population geographically achieving a minimum of 75% or greater occupancy rates in the first 4 months of each service line.
- Ensured all facilities maintained regulatory and accreditation compliance (TJC, CMS, CARF, OFCCP, OIG and EEOC).
- Negotiated and established new HMO and Private Insurance Contracts.
- Implemented CMS criteria for Perspective Pay System.
- Member of acquisition team and conducted operational analysis for successful purchase of 3 Texas; 2 Louisiana LTC/SNF facilities.
- Recruited and stabilized permanent staff to eliminate agency utilization in newly acquired facilities.
- Developed and implemented retention program eliminating employee turnover (less than 2%).

- Recruited and implemented a Nurse Practitioner Program across 8 facilities in two states.
- Implemented new standardized Operational, Nursing and HIPAA policies and procedures.
- Developed New Hire Employee Orientation Program.
- Led Disaster Plan implementation for Hurricanes Andrew, Georges, Isadore, Ivan, Dennis, Katrina and Rita (evacuation and stay in place with optimal outcomes).
- Responsible for Project Management of the re-build/ repair of affected facilities post hurricanes as well as oversight of ongoing care of existing patients with optimal outcomes.
- Quality of Care/ Continuity of Care ratios improved tremendously, facilities rated as above Louisiana State average (CMS 4 and 5 Star equivalent).
