SUMMARY

EXPERIENCE: Over 15 years of experience in management, program administration, government and state medical programs (Medicaid and Medicare), organizational transformation and innovation, community support and engagement initiatives, conducting customer needs assessments, creating and initiating quality metrics/standards for services, evaluating customer satisfaction, undertaking process improvement, promoting diversity and inclusion, building internal and external coalitions, and performance management to include knowledge of policies and procedures, risk analysis methodologies, qualitative and quantitative evaluation processes, counseling and advisement. Expertise in public health and behavioral health treatment delivery systems and issues relating to mental illness, developmental disabilities, and substance use disorders. Ability to research, question, and obtain pertinent information to solve organizational and operational problems. Extensive leadership experience with the ability to unify and guide large groups of personnel toward common goals. Expertise in managing several tasks simultaneously with few interruptions in the organizational flow of data, staff, and productivity.

ADMINISTRATION AND MANAGEMENT: Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership techniques, production methods, and the coordination of people and resources. Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders. Maintained quality and increased operational efficiency within organizations. Ability to assign duties and evaluate the performance of subordinate personnel. Experience supervising and directing a dynamic team consisting of senior and junior level personnel.

POLICIES AND PROCEDURES: Enforced, managed, and executed Federal, state and organizational level policies, procedures, laws, regulations, and actions. Advise executive level management in policy matters including a wide range of administrative activities, consumer and advocacy initiatives, community engagement/public relations campaigns, stakeholder engagement, strategic management and planning, recruitment and staffing, equal opportunity, diversity and inclusion/special emphasis.

BUDGET AND FINANCE: Directed financial operations to ensure the effectiveness of organizational processes, projects, and services. Monitored, forecasted, and controlled budgets utilizing sophisticated budget databases.

EVALUATION AND RESEARCH: Coordinated, evaluated, researched, and benchmarked strategic methodologies to advance organizational efficiency utilizing project management principles. Coordinated business impact analysis studies to create strategically achievable goals and metrics to improve organizational performance. Utilized and analyzed IT systems to evaluate organizational efficiency and effectiveness. Evaluated and restructured administrative processes and policies through qualitative and quantitative research. Utilized analytical tools such as interviews, focus groups, HRIS, and surveys to obtain and verify the information for organizational transformation and evaluation purposes.

ORAL AND WRITTEN COMMUNICATION: Coordinate the development of organizational strategic operating procedures and directives. Prepare in final form such materials as letters, newsletters, press releases, forms, narrative and statistical reports, policies and guidelines, and memorandums assuring format, spelling, grammar, and punctuation are correct. Maintain continuous communication with organizational senior leadership to increase awareness regarding regulatory issues. Effective written, oral communication and interpersonal skills to effectively convey information, including excellent ability to determine project objectives, implement job accountability, and efficiently utilize resources to accomplish identified communication goals. Communicate with stakeholders outside the organization, representing the organization to customers, the public, government, and other external sources.
