PROFESSIONAL EXPERIENCE

Substance Abuse Reduction Coordinator

AmeriCorps Volunteers In Service to America
Family Health La Clinica
August 2018-August 2019

Family Health La Clinica (FHLC) is a federally qualified multi location health care provider in Central Wisconsin that provides primary, dental, and behavioral health care. FHLC also operates a behavioral health recovery center that provides comprehensive behavioral health care services and Medication Assisted Treatment (MAT) for people with Substance Abuse Disease (SUD).

My primary goal was to “Help to get the right people, to the right services, at the right time to save lives” by understanding the underlying social, economic and political realities of the opioid epidemic and developing public health initiatives to make a meaningful impact.

My responsibilities included:

- Participating and contributing to policy reviews and new policy development to meet the requirement of relevant state regulations, clinical staff and client needs.
- Collaborating with community stake holders to develop a Comprehensive Community Plan CCP) help ensure that people with disorder (SUD), and their informal support networks receive necessary support until treatment resources become available.
- Developing a four-tier structured database of community assets and supports.
- Designing and developing data bases to track formal and informal supports, linkages between support at the inter at intra level tiers to leverage and uniform the capacity of these groups to collect assets, perform data mapping and analysis to improve the social safety net for people with SUD and those who support them.
- Designing visual representations of community assets, map out existing linkages and via outreach and multimedia presentations and maps to identify areas that require forging new linkages.
- Compiling mortality, morbidity data to understand the dynamics of SUD.
- Working with 211 to expand resource guides for all seventy-two counties in WI to allow FHLC and stakeholders to refer clients with SUD outside our catchment area to resources in their local communities.
- Researching best practices and development of plans and policies to educate stakeholders on the prevention of prescription and illicit drug abuse.
- Developing programmatic activities that using best practices to address the social determinants of health to improve health outcomes.
- Planning, organizing and facilitating community forums on the intersection of Adverse Childhood Experiences (ACE), under treated mental illness and other associated traumas with drug abuse education, and the scientific understanding that SUD is a disease and not a moral failing.
- Developing executive presentations and community forums for public health departments, educators, law enforcement to improve utilization of scarce resources to improve health care outcomes.
- Developing user guides and promotional materials.
- Developing logic models, pre/post testing, and training protocols to clarify project objectives, resource needs and evaluation and modification of projects and initiatives.

LGBTQ Access to Care VISTA

AmeriCorps Volunteers In Service to America
Wright Center for Graduate Medical Education
November 2017- April 2019

The Wright Center for Graduate Medical Education is a federally qualified multi-location health care provider in North East Pennsylvania that provides primary care and dental services. WCGME also operates a specialty clinic for people living with AIDS and Transgender people.

My primary goal was to increase access to health care for LGBTQ populations by underlying and addressing the social, economic, political realities and programmatic practices at WCGME and the general population that impede access to health care for LGBTQ people via the community outreach activities in partnership with the North East Pennsylvania Area Rainbow Alliance.

- My responsibilities included:
- Researching available suitable grantors.
- Making initial contacts with grantors.
- Writing grant responses for assigned grant sections.
- Researching and writing papers addressing best practices.
- Developing logic models to facilitate pre and post testing to track progress and allow program modifications of efforts to improve the provision of culturally appropriate care from clinical and administrative staff.
- Developing best practice for gender neutral practices, intake paperwork and back end environments to be more welcoming to LGBTQ populations.
- Developing programs to ensuring clinical competencies among staff, gender neutral and gender affirming policies, practices, client facing computer systems and patient portals.
- Developing effective strategies and training materials for WCGME clinical and front office staff.
- Developing strategic outlines to provide hormone replacement therapies in NEPA for patients in gender transition.
- Developing presentations to ensure WCGME clinical and back end staff are aware of the significantly higher health care needs in the LGBTQ population. How best to address past traumatic experiences that LGBTQ patients have experienced in their interactions with a broad range of health care providers.
- Working with the information technology departments to develop computerized workflows, intake documentation, staff interactions for WCGME patients.
- Developing relationships with NEPA Rainbow Alliance.
- Assessing the support needs of NEPA Rainbow Alliance to improve relationships between WCGME and the NEPA Rainbow Alliance.
- Developing logic models, pre/post testing, and training protocols to clarify project objectives, resource needs and evaluation and modification of projects and initiatives.

Public Health Intern

Greenlee County Health Department
June 2017-July 2017

I was recruited by the Greenlee County Health Department to develop an impact study to analyze the causes of the very low annual health ranking as produced by the Robert Wood Johnson Foundation in conjunction with the University of Wisconsin.

My primary goal was to research, compile, and analyze relevant data on health outcomes, availability of health care resources, access to clinical care, social determinants of care, behavioral components and the political and economics impediments to improved health outcomes for Greenlee County residents.

My responsibilities included:

- Researching, compiling and analyzing health outcome statistics.
- Interviewing health care providers, members of law enforcement and GCHD staff to develop a comprehensive health status overview of Greenlee County residents.
- Researching health care best practices.
- Developing public health initiatives to implement health care best practices
- Developing and presenting executive and multimedia proposals to implement scientifically supported public health initiatives to drive improved health outcomes to community stakeholders.
- Conducting in-service training for Public Health Department management, directors and community stakeholders.

President

GAH & Associates Inc.
October 2002-May 2006

GAH & Associates was an independent sales agent and consulting firm for technology products and services that I founded in response to the collapse of technology markets in the early 2000's. I was responsible for developing supplier relationships and sales of consulting services, voice and data products, local and long-distance telephone services and high-speed data communication services. I maintained close working relationships with a select group of technology professionals and resold their expertise as need for larger consulting, training and product installation projects.

Account Director

Intervoice Brite
August 2001-September 2002

I sold QNX and Microsoft NT based voice, fax, e-mail messages systems and speech to text equipment to wireless providers. My primary account responsibility was ATT Wireless in Toronto Canada. I was also responsible for developing new business relationships with regional bell telephone operating companies, incumbent local exchange companies and national cable\ television providers across North America. I was the top revenue producer in my division.

Regional Sales Manager

Baypoint Innovations
October 1999-July 2001

I sold Microsoft NT based voice, fax and e-mail messaging systems to telephone interconnection companies and value-added resellers of voice and data equipment. I was responsible for direct and channel sales. My territory included the Alaska, and the Rocky Mountain and Pacific Northwest regions of the US.

Regional Sales Manager

Cyber Digital, Inc.
September 1998- September 1999

I was responsible for direct sales and channel sales development for telecommunications switching equipment utilizing a newly developed distributed architecture to local, long distance and wireless carriers. My territory included the Central and Midwest regions of the U.S.

Senior Account Executive

MFS Communications, Inc.

September 1997- August 1998

I closed strategic sales of high-end applications-driven telecommunication solutions to large customers. My product portfolio included large scale call center systems, automated call distribution systems, call routing and automated voice response systems, voice mail systems and Post Branch Exchange systems for large enterprises and distributed campuses. I was also responsible for selling bundled service packages of wireless, long distance, and local telephone service via the WorldCom networks.

Account Executive

High County Wire and Telephone

February 1993-September 1997

I sold telecommunications and data communication solutions to the public and private sectors, including large Post Branch Exchange systems for large business and campuses, business telephone systems, call center systems, automated call routing systems and voice response systems. Sales of wrap-around hardware, software and high-speed voice and data connectivity solutions for growing internet service providers, retail point of sales terminals and interior and exterior cabling and wiring solutions. Sales of telephone company hosted central office communication systems, voice mail and voice processing systems and local and long-distance telecommunications services. I was consistently 150% of quota and one of the highest commissioned sales representatives in the company.

Service Manager

Business Telemanagement Inc.

December 1991-November 1992

I organized and maximized the expansion of a rapidly growing telecommunications company. Managed operations and sales support for all phases of operations and vendor relations. Resulting in a 96% customer retention rate through application of successful client liaison and support techniques.

Customer Support Representative

Centel Communications Systems

January 1990-November 1991

I provided all phases of customer service and support, add-on sales, project management, systems design, vendor negotiation, and telephone call trafficking engineering. I developed expertise in data collection, design, input, implementation, training, and moves, adds and changes for complex communication systems.

Project Manager

Janine Asai and Associates

June 1987-January 1990

I managed all phases of large and small telecommunications projects, including large Post Branch Exchange Systems (PBX) for large business and campuses, business telephone systems, telephone company hosted central office communication systems, voice mail for the public and private sectors.

Tax Examining Clerk

Internal Revenue Service

May 1985-April 1987

I enforced the collection of unpaid taxes and filing of delinquent tax returns in accordance with the Internal Revenue Manual, and relevant tax laws and regulations. I maintained a Noncritical Sensitive Security Clearance pursuant to Executive Order 10450.
